ABOUT ME

Certified Virtual Assistant and AI Tools Expert | Aspiring Data scientist and Ethical Hacker | ALX Alumni | Comp Science Student @Busitema University

WORK EXPERIENCE

Independent Projects Freelance ALX Africa Practicums

Mid level | AI-Powered Developer & EdTech Consultant
Lira , Uganda
2025-06-01 | Currently working here

- Designed and deployed a custom LMS with gamification and local payment integration.
- Developed auto-commit workflows using Gemini API and AI tools to boost solo dev productivity.
- Created prompts for Google Stitch to automate UI generation and accelerate prototyping.
- Currently learning data science and cybersecurity to expand analytical and security capabilities.
- Eager to apply new skills in real-world projects to enhance platform security, data-driven decision-making, and user engagement.

ALX Africa Capstone Projects

Mid level | Virtual Assistant Trainee & Automation Strategist
Lira , Uganda
2025-01-01 | 2025-03-01

- Completed a Virtual Assistant capstone project focused on real-world client support tasks.
- Managed calendar scheduling, inbox organization, and customer support workflows using Google Workspace, Asana, and Copilot.
- Created professional presentations, handled travel booking simulations, and conducted online research for client deliverables.
- Practiced task prioritization, time management, and communication strategies in a simulated remote work

environment.

- Received mentor feedback and peer reviews to refine service delivery and client engagement skills.

EDUCATION

Busitema University

Bachelors | Bachelor of Computer Science

Currently pursuing Bachelor Degree of Science complemented by online courses on Cyber Security and Ethical Hacking and Data Science

ALX Africa

Certificate | Data Science

- Immersive 16-month program in partnership with ExploreAI covering Python, SQL, Power BI, machine learning, and AWS. Includes ALX Foundations and hands-on projects in regression, NLP, and unsupervised learning.

ALX Africa

Certificate | Cybersecurity

9-month program developed with Subverted, covering offensive and defensive security, penetration testing, SIEM, EDR, and strategic governance. Includes Professional Foundations and career readiness modules

ALX Africa

Certificate | Virtual Assistant & AI Career Essentials

Completed capstone projects in calendar management, inbox handling, customer support, and research. Gained hands-on experience with Google Workspace, Asana, Copilot, ResumeGenius, and Gemini. Built a professional toolkit and digital persona using AI tools.

Cisco Networking Academy

Certificate | Ethical Hacking

- Completed Cisco's Ethical Hacker course and Capture the Flag challenge. Gained practical skills in penetration testing, vulnerability assessment, red teaming, and threat mitigation. Earned Cisco Badges in Ethical Hacking.
